Dear xxxxMP

Urgent appeal! Youth services – the first public service to go!

I am a young person / the parent of a young person / I am a youth worker / and I am deeply concerned that government cuts are falling disproportionality hard on young people.

Student fees tripled, education maintenance grants scrapped, young people priced out of education and future job opportunities at risk. Over a million young people now unemployed.

All over the UK, at a time of most need, services supporting young people are being closed down or pulled apart. The youth service will be the first public service to disappear unless we act now!

Did you know... (Highlight an example of cuts to youth services in your area or tell your MP what difference youth work has made to your life or the life of your son/daughter. Show the human cost of the cuts.)

As my local MP, I am asking for your help and for you to take a stand against the damaging cuts before it is too late.

Please support the 10 Minute Bill being presented by Lloyd Russell-Moyle MP on June 6th.

I would also like to meet you on June 6th between 10 and 2pm in the MacMillan Room to discuss other ways you can help with the campaign to save our youth services. Please let me know if this is possible. (Please amend or delete if you cannot make it to London).

I look forward to hearing from you

Yours sincerely
